WESTERN
TRAIN

2 FUN FAMILY BUILDING

1976 #726 WESTERN TRAIN

The 1970s are regarded by many LEGO® fans as an outstanding decade for LEGO trains, and the Western Train from 1976 is seen as a vintage model. Based on the design of classic 19th century locomotives, the engine includes details such as a smokestack, water boiler and movable drive shafts. The set included two carriages, three identical cowboy figures and a single black horse built from LEGO bricks. It is believed that this model was the inspiration for the Western locomotives that appeared in the LEGOLAND Park shortly after.

1976 #726 Western-Zug

Viele LEGO® Fans halten die 1970er für ein herausragendes Jahrzehnt der LEGO Eisenbahnen, und die Western-Eisenbahn aus dem Jahr 1976 gilt als ein klassisches

Modell. Die Lokomotive ist den klassischen Eisenbahnen aus dem 19. Jahrhundert nachempfunden und verfügt über Details wie einen Schornstein, einen Dampfkessel und bewegliche Treibstangen. Das Set umfasste zwei Waggons, drei identische Cowboy-Figuren und ein schwarzes Pferd, das aus LEGO Steinen gebaut wurde. Es heißt, dass dieses Modell den Western-Lokomotiven als Vorbild diente, die kurze Zeit später im LEGOLAND Park auftauchten.

1976 # 726 Le train du Far West

Les années 1970 sont pour de nombreux fans LEGO® une décennie exceptionnelle pour les trains LEGO, et le train du Far West de 1976 est considéré comme un modèle vintage. Basée sur le design classique des locomotives du 19^e siècle, cette locomotive

comportait des détails tels qu'une cheminée, une chaudière et des arbres de transmission. Cet ensemble incluait deux wagons, trois figurines de cowboys identiques et un cheval noir construit en briques LEGO. On pense que ce modèle a été l'inspiration pour les locomotives du Far West qui sont apparues dans le parc LEGOLAND peu après.

1976 #726 Western Train

La década de 1970 es considerada por muchos fans como la era dorada de los trenes LEGO®, y el set Western Train de 1976 es un clásico entre clásicos. Basada en el típico estilo del siglo XIX, la locomotora incluye detalles como una chimenea, una caldera de agua y levas móviles. El set incluye dos vagones, tres figuras idénticas

de vaqueros y un caballo negro que se construye con elementos LEGO. Se cree que este modelo inspiró las locomotoras del Oeste que aparecieron en LEGOLAND poco después.

1976 #726 Westerntog

1970'erne anses af mange LEGO® fans for at være et fremragende årti for LEGO tog, og westerntoget fra 1976 betragtes som en ægte klassiker. Toget blev designet med udgangspunkt i de klassiske lokomotiver fra det 19. århundrede og omfattede detaljer som skorsten, dampkedel og bevægelige drivaksler. Sættet bestod af to vogne, tre identiske cowboyfigurer og en enkelt sort hest bygget af LEGO klodser. Det menes, at denne model var inspirationskilden til de westernlokomotiver, der dukkede op i LEGOLAND kort tid efter.

1976 #726 Vadnyugati vonat

Az 1970-es éveket sok LEGO® rajongó a LEGO vonatok kiemelkedő évtizedének tekinti, az 1976-os Vadnyugati vonatot pedig klasszikus modelnek tartják. A 19. századi mozdonyok klasszikus kialakításának megfelelően, a mozdonyon láthatóak olyan részletek, mint a mozdonykémény, a gőzkazán vagy a mozgatható hajtótengelyek.

A szett két kocsit, három egyforma cowboy figurát és egy fekete lovat tartalmazott, amelyek LEGO elemekből épültek fel. Azt beszéltek, hogy ez a modell adta az ötletet a Vadnyugati mozdonyokhoz, amelyek kicsivel később a LEGOLAND Parkban jelentek meg.

1976 #726 Vlak z Divokého západu

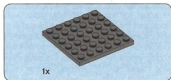

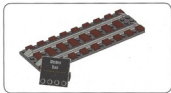

70. léta 20. století jsou mnohými LEGO® fanoušky považována za úžasná léta pro LEGO vlaky a Vlak z Divokého západu z roku 1976 patří mezi nejlepší modely. Vzorem byly klasické lokomotivy z 19. století. Lokomotiva obsahuje detaily, jako jsou například komin, vodní nádrž a pohyblivé hnací hřídele. Sada obsahuje dva vagóny, tři identické minifigurky kovbojů a jednoho černého koně postaveného z LEGO kostek. Podle

některých teorií sloužil tento model jako inspirace pro lokomotivy z Divokého západu, které se v LEGOLAND parku objevily krátce po jeho uvedení na trh.

1976 #726 西部列车

20 世纪 70 年代被众多乐高粉丝视为乐高® 火车的辉煌时代，而 1976 年版西部列车则被视为经典模型。其引擎设计以经典 19 世纪机车为蓝本，烟囱、锅炉和可移动传动杆等各种细节特性一应俱全。该套装包括两辆车厢、三个同款牛仔人物和一匹用乐高积木拼砌而成的黑骏马。据说正是由于这款车型的启发，不久之后乐高乐园里才出现了西部机车的形象。

SEASON'S GREETINGS. **FUN FAMILY BUILDING**

Frohe Weihnachten. Bauspaß für die ganze Familie
Joyeuses fêtes. Construction amusante en famille
Feliz Navidad. Diversión construyendo para toda la familia
Glædelig jul. Byggesjov for hele familien
Kellemes ünnepeket! Vidám családi építés
Přání k Vánocům. Zábavné stavění pro celou rodinu
季节的祝福·欢乐家庭拼装
