MICKEY & MINNIE MOUSE MOUSE

THE WORLD'S FAVOURITE MICE

A MIGHTY PAIR

Mickey Mouse made his public debut in Walt Disney's 1928 animated short *Steamboat Willie*, playing the role of a jolly riverboat pilot whistling at the helm. Two and a half minutes later, in the same film, Minnie Mouse made her own debut as a passenger rushing to board the boat. With a little help from a cargo crane, both mice finally met on deck – and they've been inseparable ever since. *Steamboat Willie* is a work of incredible historical significance – it was the first Disney cartoon to feature synchronised sound and a fully post-produced soundtrack – and will be remembered for generations as the film that introduced Mickey and Minnie to each other, and the world.

BEAUTIFULLY SIMPLE

Mickey Mouse's design (and by extension Minnie's) is remarkably simple – basically, a set of circles. This allowed Walt Disney and designer Ub Iwerks to produce cartoons at lightning speed: up to 700 drawings in one day!

*Mickey and Minnie
appeared together in
70 of the 129 original
Mickey Mouse cartoons.*

ON MICKEY'S POPULARITY

"Mickey is so simple and uncomplicated, so easy to understand, that you can't help liking him."

ON DREAMING UP MICKEY ON A TRAIN RIDE HOME

"Out of the trouble and confusion stood a mocking, merry little figure, vague and indefinite at first. But it grew and grew and grew, and finally arrived – a mouse. A romping, rollicking little mouse... By the time my train had reached the Middle West, I had dressed my dream mouse in a pair of red velvet pants with two huge pearl buttons. I had composed the first scenario and was all set."

NOTES FROM THE DESIGNER

Ollie Gregory – LEGO® Disney Designer

FROM IDEA TO SHELF

I want to design things that I'd like to put on my shelf, so I always visualise people's homes when I work. How does the set integrate into someone's study or sitting room? That's why we went with the 'classic' Mickey design, with his iconic silhouette and colour palette.

MY FAVORITE BITS

I really like that we're using the classic LEGO® space helmet for Mickey's nose. There are a few Easter eggs like that, Mickey's shorts (which are barrels) or his mouth (a wheel arch) to name a few. We also developed this great new tubular shape for the arms and legs to capture the original animation style of those early Disney shorts.

THE TRICKY PART

The biggest challenge we faced was the weight distribution, because Mickey carries most of his weight in the head and the body. The model needed reinforcement in the legs, feet and base to get him to stand right. That was a mini feat of engineering for us.

MEET MINNIE MOUSE

A STAR IN HER OWN RIGHT

Described as "modest, shy, and girlish" by legendary animator Frank Thomas, Minerva "Minnie" Mouse (yes, that's her full name!) has become an immensely popular and enduring character since her first appearance in 1928's *Steamboat Willie*. Children in the hundreds of thousands flock to her at Disneyland® Resort and Walt Disney World® Resort. The Walt Disney Company declared 1986 was to be Minnie's year, and in 2018 she received her own star on the Hollywood Walk of Fame.

NOTES FROM THE DESIGNER

Ollie Gregory - LEGO® Disney Designer

THERE'S SOMETHING ABOUT MINNIE

Minnie's development was shorter than Mickey's, but more intense. In design terms, the biggest difference was her shoes. She has these iconic stilettos, she has really small ankles and she stands in very classical poses, so it was very hard to get her to do a toe stand. But we did it!

EASTER EGGS

Minnie is full of interesting elements. We've used a couple of different windscreen pieces for the skirt, one of which has new decorations on it, as they really helped create the curves and the creases we needed. We developed a new eye disc for both characters also, which you pop in at the very end to bring them to life!

A COLOURFUL SURPRISE

On the outside, the colour palette is limited – but on the inside we've made the colours as bright as possible, which makes the building even more fun. Mickey and Minnie share quite a few features, so you could even share the experience (with a best pal or sweetheart, maybe?) and build them together.
